WIDER SCHOOL RE-OPENING FOR VULNERABLE CHILDREN AND YOUNG PEOPLE

A toolkit for education leaders.

PRACTICAL AND WARM-HEARTED LEADERSHIP

Staff well-being has never been so important.

Prepare your staff teams emotionally and professionally so that they are prepared and ready for a new normal.

TIME AND SPACE TO HEAL, REPAIR AND REBUILD

Don’t rush. Invest time in relationships and trust. New and more positive experiences will help to reduce the harmful effects of wider school closure.

HOLISTIC PROGRAMS OF RECOVERY

The children and young people most severely impacted by the pandemic will likely struggle to ‘settle to learn’ and it would be naïve to think that we will not see this manifest itself through challenging behaviour or disengagement.

Remember, you will know your children and young people the best and some may need more intensive intervention than others.

REVIEW AND POST TRAUMATIC GROWTH

It is the beginning of a story and not the end of it.

Take time to reflect and learn from the adversity and make positive changes to future plans or culture.
